

**You are invited to the
ANNUAL PCA FOUNDATION SEMINAR
Tuesday, April 25, 2017
Purina Farms Event Center
Gray Summit, Missouri**

9:00 a.m. **Registration**

9:30 a.m. to 12 Noon and 1 p.m. to 4 p.m. **Seminar**

Introduction, update on Addison's disease research and brief how-to on using UC Davis genetic diversity profiles, followed by our featured speaker Jane Killion presenting **Puppy Culture**, her acclaimed program to help breeders and owners do the right thing at the right time to ensure the best possible outcomes for puppies. Jane is a breeder, professional trainer, AKC conformation judge and author. Her book *When Pigs Fly: Training Success with Impossible Dogs* is the bible for working with non-biddable (stubborn) breeds. She and her husband breed Bull Terriers under the Madcap kennel name and have scores of performance and breed titles to their credit. *Puppy Culture* is the product of Jane's quest for science and wisdom that would lead to best outcomes for her own puppies, a quest that ultimately led to a worldwide movement helping breeders take advantage of our power to give puppies their best possible start and prepare puppy buyers to follow through with the *Puppy Culture* program.
