

**You are invited to the
ANNUAL PCA FOUNDATION SEMINAR
Tuesday, April 17, 2018
Founder's Room, Purina Farms Event Center
Gray Summit, Missouri**

8:00 a.m. Registration

8:30-11:30 a.m. **Seminar:** Introduction and update on PCAF-funded Addison's disease research, followed by our featured speaker. This year we are delighted to welcome Danika Bannasch, DVM, PhD, one of the country's leading canine geneticists, to talk about state-of-the-art in breeding healthy dogs. How do we make wise use of the increasing array of DNA tests, pedigree analysis, frequency of a disease in our breed and other tools to help us in our quest to breed poodle Poodles who live long healthy lives? Dr. Bannasch is an excellent and entertaining speaker who can explain science to those of us who aren't scientists. We hope you can join us.

Health Testing Offered during PCA Week

Tuesday, April 17: CERF (OFA) Eye Clinic, \$30. 9 a.m. to 4 p.m. Pre-register Monday at the PCA Foundation table. Walk-ins are welcome if clinic slots are available.

Monday, April 16, 9 a.m. to Friday, April 20, 12 Noon: DNA test kits for vWD, Neonatal Encephalopathy, Degenerative Myelopathy and Miniature Poodle Dwarfism will be available at special prices, as well as National Specialty discounts on OptiGen test kits for prcd-PRA, rcd4-PRA and DB/RD.
