

**The Poodle
Club of America
Foundation, Inc.**

PCAF is happy to report that several familiar companies offering DNA testing have granted us a National Specialty discount for health testing and color/trait testing of Poodles.

VETGEN: A discount price of \$45/each per health test (regular price \$55), and \$40 for first color test and \$20 each for additional color tests on the same dog is offered from 4/25/2022 to 5/31/2022. VetGen's shopping cart doesn't currently have code capability at checkout, so after placing your order, email Ann at vetgen@vetgen.com to get a rebate applied to your payment method.

OPTIGEN/WISDOM HEALTH: A discount of 20 percent on DNA testing for Poodles is available from 4/20/2022 to 5/31/2022. Use code PCA20 at checkout.

PAW PRINT GENETICS: 50% off your order of disease, coat color and/or trait tests (excludes parentage and DNA profiling) 4/25/2022 through 5/15/2022. Use code **PCA50** at checkout.
